

## How to Find the Perfect Ring

### Option 1: Use a Ring You Already Own

- Print this guide at 100% scale (no page scaling).
- Place your ring on the size circles below and find the one that matches the inside edge of your ring.
- If your ring lands between two sizes, we recommend choosing the larger size for comfort.
- Remember: wider bands fit more snugly, so consider sizing up by half if you're choosing a bold style.

If your credit card fits properly in here, then the scale of this jewelry sizer is accurate. If not, reprint the page with scaling set to 100% / actual size.

### Option 2: Request a Free Plastic Ring Sizer

## Pro Tips

Measure at the end of the day — fingers can swell slightly after activity or heat.

When in doubt, go half a size up — it's easier to size down later than up.

If it's a gift or surprise, use a ring they already wear on that finger as a guide.
